A Calamity in Iceland.

About six weeks ago there was a heavy rain of ashes and cinders along the northern coast of Norway, covering the ground several inches deep. Investigation revealed the fact that these strange materials, coming from a northwesterly direction like immense clouds through the air, were of volcanic origin. It was at once thought that there must have been an eruption at Mount Hecla, in Iceland. A steamer was dispatched from Copenhagen, and that vessel has returned from Reikjavik, with news of an unparallelled disaster. It seems that the outbreak began on Christmas, and has continued ever since, with scarce any interruption. For seven weeks before Christmas the inhabitants were terrified by subterranean noises like thunder, which extended through nearly two-thirds of the island. Early in January followed earthquakes in all directions, and at last an old, extinct volcano near Vatrayskud opened, and for four weeks continued to eject immense quantities of liquid fire, lava, ashes and a muddy fluid at boiling heat. The village and some smaller hamlets and farms within a radius of twenty miles were destroyed, and over a thousand people had to flee for their lives.

After four weeks this volcano ceased, but at that moment another extinct volcano, nearly a hundred miles away, near Myvatn, sent its burning mass upon the peaceful habitations around. This eruption lasted for several weeks. The village of Myvatn became a prey to the fiery elements and the whole country for more than fifty miles around was devastated. More than 800 of the people are reported as being rendered homeless. Early in March there seemed to be a general upheaval of the earth in the whole central portion of the island; new mounds, as it were, rose to the hight of several hundred feet and over a thousand feet in diameter at the base, amid tremendous shocks of thundering beneath. They split open at the top and vomited forth their burning contents upon the surface around them, covering a distance of 200 miles. Ten thousand people are said to have lost nearly all their possessions, and the remainder, who live nearer to and along the coasts, some 40,000 in number, are themselves too poor to support such a vast number of needy people. Several hundred persons are also reported to have perished. These world renowned Geysers have dried up since the terrible eruption began, and instead of water, these mysterious funnels emit immense quantities of hot smoke and ashes, which, during the night, rising several thousand feet into the air, appear like gigantic columns of flameless fire, visible for hundreds of miles. It is said that no historic record of any volcanic eruption anywhere in the world compares with this, either in territory over which it extends, the number of newly opened craters, or the time of its duration. The Copenhagen Government has issued an appeal for aid to the sufferers.

THE FRENCH WINE CROP.—The vintage of 1874 in France turns out to have been magnificent. The wine crop is to France what the cotton crop is to the United States—and it is even more. The money value of the wine produced in France last year, at its lowest estimate, is 8,200,000,000 francs, or $650,000,000 A cotton crop of 4,000,000 bales, at 20c per lb, would represent not quite two-thirds of the sum which France will get for her wine crop of 1874. The truth is that France is provokingly rich. The money she receives for wine alone is more than the whole income of her German conquerors—the entire German indemnity could be paid by the wine crop of two such years as 1874, and something would be left over to spare. The crop of 1874 is smaller than those of 1865, 1868 and 1869; but it is larger than that of any other year in this century, and the quality this time is very excellent. It is 27,500,000 of hectolitres more than it was in 1873—that is 605,000,000 gallons more At the average lowest price of wine in France, this would represent a gain of about $270,000,000 over the crop of 1873. These are such very large figures that it requires a little effort to comprehend their full significance. The total quantity of wine produced in France in 1874 was 1,389,814,700 gallons. No one can easily grasp the idea of so many gallons, so let us put it into barrels. It would be 30,000,000 of barrels containing thirty-six gallons each; these barrels, placed on end, would almost reach around the whole earth; or their contents would fill a canal big enough to float a gun-boat all the way from New York to San Francisco. The greater portion of the wine of France is consumed in France. Her home consumption of wine last year was 1,200,000,000 gallons. Little Switzerland was her largest foreign customer, taking 14,000,000 gallons; Germany comes next, although she raises much wine of her own; England is the third best customer, Algeria is the fourth, La Plata the fifth, the United States the sixth, Brazil seventh, Uruguay eighth, Belgium ninth, Holland tenth, Egypt eleventh, and Russia twelfth.—*Exchange.*

A GOOD EXAMPLE FOR BUSINESS MEN.—In a notice of the death of John Harper, one of the Harper brothers, it was said: "After Mr. Harper had left his office for the day and retired to his home on Fifth avenue, he would give up all thought of business matters and would refuse to converse on business affairs. That fact should be painted in white letters on a black background, and framed in gilt and hung over the desk of every business man in the land. And over the portals of every business man's home should be the warning to those who would thrust business into that house: "No business transacted here." You cannot throw a stone into a crowded street that you will not hit a man broken in body, if not in mind early in life, through the wear and tear of business, which has been permitted to follow his every step from morning till night, and even the hours which should be devoted to sleep. This very day, stopping at the post-office, one gentleman could not walk the gauntlet out of the postoffice corridor before he must begin to open his mail, while another gentleman was passing from the office, and in the street was breaking the envelopes and reading the enclosures. Not even the short walk to his place of business, of a pleasant morning, was permitted free from business cogitations. Two-thirds of our business men reserve until evening the most taxing part of their day's work, and pass their evenings, even to the small hours, in devising plans for the next day's operations. Of course they break down before they have reached the meridian of their lives, while Harper, who drives business care from him as he turns from his place of business, devoting the time not necessary for sleep to recreation—reaches a good old age sound in body and mind."—*The Republic.*

DYING RADICALISM.—The Radical party in California is evidently going the way of all transgressors—to the bad. The fate that has overtaken that organization in New York, Ohio, Pennsylvania, Connecticut, Massachusetts and Indiana awaits it in California. The signs of weakness and dissolution are unmistakable. Its knees are trembling, its pulse is weak, its breath is short. Its end draws nigh. The campaign just begun will be the last of it. Its old leaders are quarreling and fighting among themselves, furnishing an edifying spectacle to all who perceive the hand of retributive justice in the fact that these schemers are made the instruments of their own punishment. The ticket put forth by Gorham, Carr and Sargent not only invokes no enthusiasm from the masses of that party, but its announcement was the signal of an explosion for disgust on all sides. Let the Democratic State Convention only give us a good ticket, and it will sweep the State like a whirlwind.—*Sonoma Democrat.*

CUT THIS OUT.—The following receipt is furnished to the Virginia *Enterprise* by a correspondent of that paper: "I herewith append a receipt which has been used to my knowledge in more than a hundred cases. It will cure or prevent the small-pox, though the pittings are filling. It is as unfailing as fate, and conquers in every instance. It is harmless when taken by a well person. It will also cure scarlet fever. Here it is as I have used it and cured my children of scarlet fever. Here it is as I have used it to cure small-pox, when learned physicians said the patient must die. It cured. Sulphate of zink, one grain; fox-clove (digitalis), one grain; half a teapoonful of sugar. Mix with two tablespoonsful of water; when thoroughly mixed add four ounces of water. Take a spoonful every hour. Either disappears in twelve hours. For a child, smaller doses, according to age.

The Greatest Insult Ever Offered to the American People.

[From the New York *Ledger.*]

"But I was made to believe that the public good called me to make the sacrifice. * * * But it must be remembered that all the sacrifices, except that of comfort, had been made in accepting the first term."—*General Grant's Letter to General White.*

A few years ago there was a man who had been educated in our West Point Academy at the public expense. He had dropped out of the army and became a hauler of cord wood to the St. Louis market. Common report says he used to be found dallying along by the roadside on his way home. Later he was a clerk in a leather store in Galena, very poor.

He was appointed a Colonel in the army, and promoted and promoted and promoted, until he had the command of all our armies. Many persons always thought that much, very much of his success was owing to the superior opportunities that were given him.

Finally, a rank and title, never before conferred in this country, were created especially for him. He was made the General of the United States army. Then he was nominated for President of the United States and elected. Next he was re-elected.

Elected and re-elected to what? To the highest elective office ever created by man! To an office, to hold which, in the infancy and beginning of the Republic, George Washington was proud! An office which Thomas Jefferson and James Madison and John Quincy Adams and Andrew Jackson gloried in the privilege of filling.

And now look upon the beggar on horseback—the penniless wood hauler—despised then, not for his poverty, but for his gross weakness and faults, coming out in a letter and spitting in the face of the whole American people, and insulting them in the most odious and offensive manner, and prating upon the "sacrifices"—"sacrifices," that's the word—which he—he—HE—Ulysses S. Grant uses—the sacrifices he made in becoming their Chief Magistrate!

Out upon the poor fool! Who does he imagine he is? Let the contempt of the whole great American people he has insulted cover him countless fathoms deep!

BIDWELL.—This is Bidwell according to the *Post*. John Bidwell, who has been selected to lead the ranks of the Dolly Varden fakirmers, is about as appropriate a nomination as they could have made. He is a piece of pomposity who has nothing to recommend him except his wealth. He is a farmer, as the Duke of Sutherland is a farmer, or the Marquis of Bute is a farmer—that is to say, he owns a principality of land which overseers cultivate for him with hired laborers. He served one term in Congress, and introduced and had passed the infamous Suscol Ranch bill, by which three hundred settlers in good faith were robbed of their homes—an atrocious villainy which is not yet forgotten. When Mr. Bidwell came home from Congress, he became a candidate for Governor, but was defeated by Gorham's friends, who sent all the delegates they could find up to see *him*. His pompous manner so disgusted the delegates that Gorham had an easy fight. Bidwell is a thorough going Republican, and was recently a candidate for the Republican nomination; but it being apparent that he had no chance he was not brought in. And the managers of him thus is not a pity that the Dollies could not have Booth for their candidate? Instead of that "child-like and bland" face, they have been forced to nominate a white vest and a pair of white gloves. "General, what have you been doing to your hair?" "Aw! well, it is some little twist my barber taught me when I was in Par-ee." He was six days in Paris, we believe, and since then has been exquisite in his pronunciation of the name of the grand French capital. If you desire an audience of the General now, send in a scented card by his darkey! Aw!

A THOUSAND LIVES LOST—VILLAGES DESTROYED—20,000 PEOPLE DESTITUTE.—PARIS, July 25th.—The loss of life by the flood at Toulouse is appalling. At the St. Cyprian quarter, 215 corpses have already been found. The violence of the torrent frustrated all efforts to rescue the unfortunate inmates of the houses. Several men were drowned in the attempt. Twenty thousand persons are deprived of the means of subsistence in Toulouse alone. The disasters elsewhere are almost equal in magnitude. The lower part of the city of Moissac, on the Tarn, is under water. At Tremoulet, in the department of Ariege, five houses only remain standing out of 400. In the District of Foix, in the same Department, two villages are completely submerged, and many dead bodies have been found. Crops of all kinds throughout the inundated District have been destroyed. President McMahon and Minister Buffet have left Paris for the scenes of the destruction.

PARIS, June 25th—Midnight.—General De Cissey, Minister of War, accompanied the President and the Minister of the Interior to the scene of the inundation. The municipal council of Paris has voted $20,000 for the relief of the sufferers. Eight persons were drowned in Verdun. Eight hundred houses have fallen in Toulouse. At Bordeaux the Garonne is much swollen, but no serious catastrophe is reported. It is said that altogether over 1,000 lives have been lost.

LONDON, June 27.—Special telegrams to the *Times* say 900 persons perished in the flood at Toulouse alone. The outbreak of an epidemic is feared. It is believed that 2,600 houses have been swept away in the town and environs. The damage is estimated at from twelve to fifteen millions sterling. The Paris correspondent of the *Times* makes an appeal to British charity in behalf of the sufferers.

A *Daily News* special says the lowest estimate of deaths in the flooded districts is 2,000.

It is proposed to bombard and destroy the St. Cyprien quarter in Toulouse, to prevent danger from crumbling walls.

STORM AND LOSS OF LIFE IN VALPARAISO.—VALPARAISO, May 25th.—A heavy northeast storm occasioning much loss of life and damage to property, was experienced on the 23d, and continued with increased violence throughout the 24th. It is estimated that over fifty lives were lost. The following, as far as has been ascertained, is the list of the marine disasters and casualties: English bark Negre sunk, and the Master, his wife and five children were drowned; the corvette Esmaulda; the Guatemalan bark Edan, with 440 tons of freight, was considerably damaged, no lives lost; 300 tons of freight will be saved; the Nicaraguan bark Triegallo, total loss; Captain, son and a number of the crew drowned; French bark Jules Borde, 336 tons; went ashore; the English bark Laura McLennan lost main and foretopmasts and bowsprit; Nicaraguan ship Elvira Alvarez, lost her bowsprit; the Chilean bark John Julian lost her bowsprit and foremast; the Chilean man-of-war Thalaba lost her bowsprit and cutwater cables, and her bow was also badly damaged; the Nicaraguan bark Juanita lost her bowsprit; the Nicaraguan bark Orian lost her main and mizzen mast; the Chilean gunboat Map lost her bowsprit; the Chilean school ship Valdivia was considerably damaged and several lives lost.

THE EXPERIENCE OF A BOSTON SHIP.—The ship Hamilton, first officer Hill, reached Brooklyn June 27th, after a voyage of 120 days from Manila, with 44,000 bags of sugar. "On the 4th of June, about three o'clock in the morning, I was standing aft, near the wheel, in charge of the vessel. We were then not far from the island of Barbadoes, in latitude 19 deg. 16 min. north, and longitude 57 deg. 51 min. and running in a light trade wind, blowing about four knots an hour. The water was as smooth as the river here. Suddenly the ship entered a sea running dead ahead, which was so heavy that it pitched the water through the hawse pipes and threw spray over the bow. For ten or fifteen minutes the ship pitched in the sea, and then there came a heavy, rumbling sound, as if fifty barrels were rolling over the deck. I hurried forward, expecting to find everything loose; but there was not a thing wrong. This rumbling continued five or ten minutes longer. The ship trembled and shook exactly as if she were bumping over a sand bar, and the sea ran heavier and heavier. Then there was a heavy shock, as if the ship had run square into that dock there, and then everything was quiet. The rumbling noise stopped, the sea became smooth, and the ship went on all right."

The Father of Waters.

The Mississippi river is the guardian and pledge of the union of the States of America. Had they been confined to the eastern slopes of the Alleghanies, there would have been no geographical unity between them, and the thread of connection between lands that merely fringed the Atlantic must soon have been sundered. The Father of Rivers gathers his waters from all the clouds that break between the Alleghanies and the furthest ranges of the Rocky Mountains. The ridges of the eastern chain bow their heads at the north and at the south; so that, long before science became the companion of man, nature herself pointed out to the barbarous races how short portages join his tributary rivers to the shore of the Atlantic coast. At the other sides his mightiest arms interlock with the arms of the Oregon and the Colorado, and by the conformation of the earth itself marshals highways to the Pacific. From his remotest springs he refuses to suffer his waters to be divided; but, as he bears them all to the bosom of the ocean, the myriads of flags that wave above his head are all the ensigns of one people. States, larger than kingdoms, flourish where he passes; and beneath his step cities start into being, more marvelous in their reality than the fabled creations of enchantment. His magnificent valley, lying in the best part of the temperate zone, salubrious and wonderfully fertile, is the chosen muster-ground of the most various elements of human culture, brought together by men summoned from all the civilized nations of the earth, and joined in the bonds of common citizenship by the strong, invisible attraction of republican freedom. Now that science has come to be the household friend of trade and commerce and travel, and that nature has lent to wealth and intellect the use of her constant forces, the hills, once walls of division, are scaled or pierced, or leveled; and the two oceans, between which the republic has unassailably entrenched itself against the outer world, are bound together across the continent by friendly links of iron.—*Bancroft's History of the United States.*

THE GREAT MONOPOLIST.—Gen. Bidwell said in his speech before the convention which nominated him:

"I am against all monopolies, and have been earliest in the field against them. We can no longer bear the power of monopoly and be free."

And yet the man who had the charming cheek to make that declaration in presence of all the people is himself one of the greatest monopolists in California! He has monopolized more of the soil of his county than any other man or association of men. Over twenty thousand acres of the best arable land of Butte are his; and he will not sell a farm at any price and only rents his acres to the highest bidder! High rates for gas, water and fares is not half so bad as high rates for land. The gas and railway cost money to make, and conducting the water to the place of delivery costs cash also—but the land cost never a dollar, yet Bidwell and his co-monopolists hold it up at their fancy prices—high above the reach of all ordinary men.

Satan rebuking sin is said to be a fine example of indurated cheek, but this exhibition of John Bidwell far surpasses it in the sublimity of impudence!—*Bee.*

THE LATE E. B. CROCKER.—Judge E. B. Crocker, who for nearly a quarter of a century has with his family resided in Sacramento, died at his home Friday after some years of painful illness. In his case it may well be said that death came as the richest blessing. Judge Crocker was during his whole California life looked upon by his fellow citizens as the noblest work of God, an honest man. And he was earnest too in all his undertakings. One of the greatest workers on the bench, at the bar, or in his office he paid the penalty of his habitual overwork in an early death. As a lawyer he was reliable, as a jurist upright, as a citizen patriotic, as a neighbor desirable, as a friend invaluable, and in all his domestic relations he had the reputation of being a model man. During all his tedious, hopeless sickness his devoted wife never left him for a day—scarcely for an hour; and though wearied with watching there was no rest or comfort for her but in caring for him; and many feared that her health might fail beneath the task, but, thanks to her excellent constitution, these fears were not realized.—*Bee.*

THE IRRIGATION PROBLEM.—Says the Sacramento *Record-Union:* "Had the Republican State Convention fulfilled its mission, we have no doubt that an intelligent and satisfactory irrigation plank would have appeared in the platform. As it is, the resolution which deals with that important subject is, like all the products of the professional politicians, vague, thin and empty. It declares, in a circuitous fashion, that all the waters of the State ought to be appropriated by the State for the use of the people. As a matter of fact R. Wright as well have declared that all the money in the State ought to be appropriated for the use of the people; for all who possess the least acquaintance with the subject know that legal rights have already been secured to by far the greater part of the available waters, and that, consequently, before the State can move in the premises it must buy out the holders of these titles. Of course the framers of the platform did not care two straws for the public interests. They had to say something about irrigation, and naturally they selected the demagogue standpoint."

THE TRUE PEOPLE'S PARTY.—The Democratic party is strong with the people because it believes in no more laws than necessary to protect the rights of its citizens, and preserve a fair balance between the three great industries of the country—agriculture, commerce and manufactures. Its opponents under all names have oppressed the agricultural interest, while the Democratic party, whenever in power fostered and protected it; hence its hold upon the small land owners, which no misrepresentations of its enemies can loose. The literature, the capital and great newspapers, because dependent upon capitalists for support, are now, as they have always been, against it. Yet, in the face of this powerful opposition it has triumphed, and in spite of them will triumph again. The party, then, owes no man favors, and whether this or that man fails, is as nothing in its onward march to its future destiny, which is to execute the will of a sovereign people, and not to govern from a seat of centralized power forty millions of freemen.—*Sonoma Democrat.*

T. GUY PHELPS' DEFENSE.—The Radical candidate for Governor, T. Guy Phelps, is most unfortunate; in a long speech delivered at Platt's Hall he was forced to take the defensive, and occupy the whole of the evening in attempting to explain his connection with the Southern Pacific railroad, the Stockton and Copperopolis railroad, and the Western Pacific railroad. He also tried to smoothe out his rumpled record in regard to the famous wardrobe scene which occurred when he was a candidate for the United States Senate. He explained by a general denial, that he paid the Mariposa Blackwells $10,000 to withdraw from the Congressional candidacy in the San Francisco District. That somebody paid the coin, and that Phelps got the nomination, is the fact notwithstanding. He evaded other grave charges in the same general way. The speech was self deprecatory and humble in tone, a sort of Uriah Heep defense.

WHAT IS IN THE BEDROOM.—The importance of ventilating bedrooms is a fact in which everybody is vitally interested, and which few properly appreciate. If two men are to occupy a bedroom during a night, let them step upon weighing scales as they retire, and then again in the morning, and they will find that their actual weight is at least a pound less in the morning. Frequently there will be a loss of a pound or two, and the average loss throughout the year will be more than one pound; that is, during the night there is a loss of a pound of matter, which has gone off from their bodies, partly from the lungs, and partly through the pores of the skin. The escaped material is carbonic acid and decayed animal matter, or po

Democratic State Convention.

In compliance with the call of the Democratic State Central Committee, the Democracy of the State assembled by Delegates at Union Hall, San Francisco, on Tuesday, June 29th.

Ex-Governor Downey, Judge Leander Quint and Senator Casserly were nominated for Temporary Chairman, and immediately Senator Casserly asked to be excused from serving as an officer of the Convention, at the same time tendering his thanks for the honor conferred in nominating him, and said: "They were not there as the partisans of any man or any party of men; they were not there as tied to any candidate or candidates, but they were there in the interest of something which is far higher and very much beyond any such personal considerations. They were there as partisans only of that grand old party which, after having passed through the blasting fires of a civil war, is to-day stronger, more powerful, and, like the young eagle, has renewed its youth, and is prepared in joy to run its race once more—a race of beneficence, of justice, and of sound doctrines in Federal and State affairs." [Applause.]

The ballot being taken for Chairman resulted in the choice of Gov. Downey, who was conducted to the stand and said:

"Gentlemen of the Convention—I feel deeply indebted to you for this manifestation of preference for me. I should have gladly seen a friend of many years the successful candidate for the position, Judge Quint, one whom I respect and esteem. I hope that it is no manifestation, the selection of any officer in this Convention, that there is any partisan feeling, which must, under all circumstances, be avoided. There will be no unfairness displayed by me, for I am here only for the one purpose, the good of the State and the good of the party. [Applause]. There never was an epoch in our history that demanded such an effort from the Democratic party as the present. For the last eight years—since the election of Haight—there has not been offered to you a grander opportunity, and I am sure by the representation that I see before me, that you will take advantage of it. There never was a Convention which assembled in this State composed of better representative men. They have gathered from the south and from the north, and as you see, proxies are few and far between. Our opponents feel alarmed, and well they may be, for I am satisfied, through your deliberations, that we may get out a set of candidates that will make the people of the State feel safe that they will have men at the head of the State Government who will study their interest. Returning to you my thanks and regretting my inability to discharge the duties as I would wish, I will now say that I am ready to entertain any motion that may be submitted."

Temporary Secretaries and Sergeants-at-Arms were nominated and elected.

Secretaries—Owen Thorne, Wm. H Miller, James J. Shackleford.

Sergeants-at-Arms—J. F. Lyons, Edward Daley, P. Barry, Wm. Murray, Michael Farrell, J. P. Bohm, T. Douglass, Dan O'Connell, T. Delaine, Jas. Gilroy, J. A. Maloney and E. Morris.

On motion a committee on credentials was appointed, consisting of one from each Judicial District. J. C. Ball, Esq., represented the Sixth District on that Committee. After it had been announced by the Chair, a recess was taken till four o'clock.

At that hour Union Hall was densely packed, and while waiting for the report of the Committee on Credentials short speeches were made. "Bob Ferral" was loudly called for, and as he appeared upon the platform was greeted with applause. He made some felicitous remarks in which he scored Gorham, Sargent, Phelps and Bidwell. Did not know of any Convention within the last fourteen years that had not been afflicted with the name of Bidwell as a candidate for some office.

General Jo. Hamilton was next called to the stand and talked a few minutes in his usual happy strain. He said that from the character of the immense "audience" of delegates he saw before him, and from "the great enthusiasm that seems to imbue the hearts of every man in this crowd," we are glad to believe, Mr. President, that this is going to be a good year for Democrats.

About five o'clock the Committee on Credentials made their report, the chairman stating that there were two delegations from Sacramento, and that the Committee were unanimous in admitting the delegation headed by A. D. Thompson. Mr. Thorne then read the following list of delegates:

Another motion prevailed for the appointment of a Committee of seven on Resolutions, and the Chairman named the following gentlemen as such Committee: E. J. Lewis, Tehama; J. T. Jarboe, San Francisco; Niles Searls, Nevada; J. T. Farley, Amador; G. I Carpenter, El Dorado; E. Casserly, San Francisco; and F. McCoppin, San Francisco.

Having proceeded thus far and completed all that could be done under a temporary organization, the Convention adjourned till ten o'clock June 30th.

SECOND DAY'S PROCEEDINGS.

Convention met at 10 A. M., the immense hall and galleries being crowded. Gov. Downey rapped for order and called for the report of the Committee on Permanent Organization.

The report recommended for President of the Convention, ex-Governor Downey; Vice-Presidents—Judge L. Archer, James T. Farley, E. J. Lewis, A. E. Conroy, Judge Rosenborough, Charles Mitchell, Geo. W. Henley, James O'Neil, R. Weil. Secretaries—W. H. Miller, T. J. Shakleford. Sergeants-at-Arms—J. P. Bowen, P. Barry, M. Farrel, D. O'Connell, J. T. Rodgers, Richard Murray, R. Wilson, Edward Harris, Thomas Douglass, James Gilroy, Edward Naly, James Mahoney.

ORDER OF BUSINESS.

First—The nomination of a candidate for the office of Governor.
Second—Lieutenant Governors
Third—Secretary of State.
Fourth—Controller.
Fifth—State Treasurer.
Sixth—Attorney General.
Seventh—Surveyor General.
Eighth—Clerk of Supreme Court.
Ninth—Superintendent Public Instruction.
Tenth—Appointment State Central Committee.

A resolution was passed that the members of the State Central Committee shall be elected as follows: Each judicial district shall name one member, and seven members at large shall be nominated by the Convention.

THE PLATFORM.

Mr. Lewis, of Tehama, Chairman of the Committee on Platform, submitted the following report:

The Democratic party of California, in State Convention assembled, in compliance with usage, do assert the following principles as the basis of their political action, and pledge the candidates about to be nominated to their hearty support.

We declare: First—That we are opposed to the unconstitutional interference of the Federal Administration in the domestic affairs of the States, by which one portion of the Union is ground with taxation to keep another portion of the Union in bankruptcy and servitude.

Second—We condemn the Republican party not only for its contempt of constitutional obligations, but for its extravagant, partisan and corrupt administration of the Federal Government, for the perversion of the functions of the latter to enrich great corporations at the expense of the public, for the jobbery and frauds which have brought reproach upon Democratic institutions, for the Sanborn and Jayne frauds, for the infamous Washington Ring, for the back pay steal, the iniquities of the protective system, the curse of inconvertible paper money, the nepotism of the President, for its disgraceful diplomatic service and unfit appointments, for its attempt to pass an unconstitutional force bill, which was fortunately frustrated by the determined front of the Democratic minority in both houses of Congress, and for a catalogue of other enormities which have rendered that organization offensive even to the mass of those who were once its supporters.

Third—That now as in all past periods we are in favor of a strict construction of the Constitution and against the exercise of doubtful powers, in favor of limiting the powers of legislative bodies, in favor of a tariff for revenue only, and a currency convertible into gold and silver at the will of the holder, against the profligate and wasteful system of local improvements by the Federal Government, and in favor of reducing the expenditures of the State Governments, and of the counties and towns, and the salaries of officials, which have been largely increased since the State election of 1871.

Fourth—That the school system and fund of this State are under the guarantee of the Constitution as inviolable, and we are opposed to any diversion of the fund to any purposes except those ordained by the Constitution.

Fifth—We assert the traditional policy of the Democratic party in declaring it is the right and duty of the Legislature to regulate corporations, whether railway, gas, telegraph, water or otherwise; to limit their charges in the interest of the public, and to compel them to serve all citizens without discrimination, and at reasonable rates, and that when they refuse to do so, we recognize the right and declare the intention of making them do so, and we further assert it to be the duty of the Government to preserve the waters of the State for irrigation and other public uses instead of premitting them to be made the means of extortion and monopoly.

Sixth—That the Democratic party has no occasion to make any new departure or declaration of opposition to the system of subsidies, when we recall the fact that it is to a Democratic State Administration that this State owes its deliverance from this oppressive, unjust and corrupting system.

Seventh—That we are in favor of calling a Convention of delegates elected by the people to amend the Constitution of the State, as the only mode of creating a system of Government at once harmonious and efficient, and are therefore opposed to the amendments to the Constitution, which are to be submitted to the vote of the people at the ensuing election.

Eighth—That the time-honored doctrine of local self-government is sufficient when properly administered to afford an effective remedy for the evils now caused by Chinese labor and the presence among us of an inferior race, detrimental to our moral and physical health; that in the interests of all classes in California, especially that of the white working people, we demand such amendment to the Burlingame treaty as shall reduce it to a mere commercial convention.

Ninth—That we condemn the doctrine whereby the power of the State to prevent the importation to our shores of degraded persons for immoral purposes has been denied!

Tenth—That we favor the speedy completion of a transcontinental railway on the Thirty-second Parallel, subject to such limitations by the Federal and State Governments as shall protect the rights of the people.

Eleventh—That we are in favor of equal taxation, and any departure from this principle or any system of taxation which imposes a double tax upon the same object is in violation of the spirit of the Constitution and unjust to the best interests of the State.

Twelfth—That all legislation intended to regulate the social habits and customs of the people, so long as those habits and customs do not interfere with the welfare of society at large, and all legislation of the character known by the general name of Prohibitory Law is opposed to the principles of the Democratic party, and is calculated to promote a pretense of social morality, rather than a well-founded system of public order and decency.

Thirteenth—That we invite the hearty co-operation of all persons, whatever may have been their past political affinities, to unite with us in carrying out the principles herein enunciated.

Fourteen—That we condemn, as subversive of the rights of the people and ruinous to the best interests of the State, the policy of permitting the lands of the State to become a monopoly in the hands of a few at the expense of the many, and we hereby pledge the Democratic party to the correction of this giant evil.

On motion of Mr. Galvin, of Tuolumne, the Report was adopted amidst great enthusiasm.

NOMINATIONS FOR GOVERNOR

Were declared by the Chair to be in order. Mr. J. K. Byrne placed in nomination Thomas Findley, of Nevada; Mr. J. Kelly of San Francisco, seconded the nomination. Mr. Lockwood, of Yuba, nominated James A. Johnson, of San Francisco; Mr. Lamar of Mendocino, seconded the nomination. Mr. Roseborough, of Siskiyou, nominated William Irwin, seconded by Senator Farley, of Amador. Judge Archer placed in nomination C. T. Ryland, of San Jose; seconded by Henry F. Williams, of San Francisco. Senator Phillip A. Roach, of San Francisco, was placed in nomination by Captain Mullen of San Francisco; Mr. F. J. Clark, of Alameda, seconded the nomination.

It was resolved that the different candidates should ascend the stand, show themselves and address the Convention, which they did, endorsing the platform and pledging themselves to do all they could for the success of the ticket, whether they were fortunate enough to receive the nomination or not. We have only room for the marks of the successful candidate,

HON. W. IRWIN.

Mr. Irwin next addressed the Convention. He appeared before the delegates to announce that the platform met with his most hearty adhesion, because he could say from the bottom of his heart that it was a Democratic platform. It embodied the doctrines which had characterized the Democratic party from the days of Thomas Jefferson down to the present time. It set forth the principles of home rule, free trade and hard money. (Cheers.) These embodied the true principles of government and political economy. The people of California and of the whole Union could never be prosperous under the rule of any party which did not promulgate these doctrines. The people of this country had been suffering, perhaps, as no other people in the world had suffered, because the Government has been entrusted to a party which does not follow those principles. The South had suffered from the abnegation of State rights and home rule, and by a protective tariff. The Government professed to know better than the people how labor could be most profitably employed. He was one of those who endorse the principles which appeared at the head of the old *Globe* newspaper at the time of Jefferson, that "the world is governed too much." The working classes would never enjoy true prosperity till speculative paper had been brought down to hard money. [Cheers.] The Independent party could have no solution for every issue that arises like the old Democratic party. The people are never as likely to obtain reform from a mushroom party without a history, without doctrines, composed only of a bundle of expedients, as they are from a party like the Democracy, with such noble traditions coming down from such men as Jefferson, Jackson, Van Buren and Wright. It would be more than a crime to now desert the Democratic party; but rather the State of California should fall into line with Eastern States in the election of a Democratic President next year. If nominated he would leave no stone unturned to ensure the success of the ticket; but if another should be chosen he would labor just as hard to secure the success of the party. [Applause.]

After the candidates had concluded their remarks the Convention proceeded to ballot with the following result:

First Ballot—Findley 87, Johnson 53, Irwin 104, Ryland 63, Roach 34

Second Ballot—Findley 90, Johnson 54, Irwin 109, Ryland 70, Roach 22.

Third Ballot—Findley 91, Johnson 61, Irwin 117, Ryland 76.

Fourth Ballot—Findley 94, Johnson 59, Irwin 119, Ryland 73.

Fifth Ballot—Findley 92, Johnson 54, Ryland 71, Irwin 128.

Sixth Ballot—Findley 94, Johnson 48, Ryland 67, Irwin 141.

Seventh Ballot.—Findley 75, Johnson 19, Ryland 58, Irwin 193.

The nomination of Mr. Irwin was made unanimous.

SPEECH OF MR. IRWIN.

Mr. Irwin thanked the Convention heartily, and assured the Convention that all his powers and ability should be honestly devoted to the success of the ticket. The canvass had been conducted with good feeling between candidates and friends. He had no feelings of bitterness toward either of his opponents. If any were engendered at all he hoped they would be forgotten and all unite for the party and country. As he concluded three cheers were given.

After the speeches of the other candidates were concluded, the Convention adjourned to 10 o'clock A. M. Thursday.

ENTHUSIASTIC SERENADE TO IRWIN.

At 11 o'clock the friends of Irwin, the Democratic nominee for Governor, serenaded him at the Cosmopolitan hotel. A large crowd gathered and he addressed them for half an hour in a fervid manner, and was cheered and applauded very frequently.

The following additional nominations were received by telegraph.

James A. Johnson, of San Francisco, for Lieutenant-Governor.

Thomas Beck, of Monterey, for Secretary of State;

J. W. Mandeville, of Tuolumne, for Controller;

Lewis Estudillo, of San Diego, for Treasurer.

General Jo Hamilton, of Placer Co., for Attorney General.

Hon. Wm. Minis, of Yolo Co., for Surveyor-General.

Third Congressional District Convention—Luttrell Nominated.

On Wednesday, June 30th, during a recess in the State Convention in San Francisco, the Delegates to the Third Congressional District Convention assembled upon call of Hon. John Boggs, of Colusa; Judge Jackson Temple of Sonoma was elected Chairman, and J. P. Goodwin Secretary. The delegates on the roll call of the State Convention were declared delegates to the Congressional Convention.

Nominations were declared in order.

Barclay Henly, of Sonoma, said he believed they were all unanimous for Hon. J. K. Luttrell, and he moved to nominate him by acclamation. Carried.

Mr. Luttrell came forward and said he had not solicited the nomination; he did not desire it; he was ready to stand aside for Henley, Temple, Pendegast, or any one else, but if desired he would—

Judge Temple—You have already been nominated.

Luttrell—Thank you. I will canvass the whole State for the ticket. What Freeman said the other day is false. I never had a political conversation with him. Gentlemen, you know my record. I am a Democrat; always was and always will be. If tendered a sealed commission for Governor of the State and be a Republican, I would decline it. I will in Congress represent the whole people. I will strike at every dirty hole in the Black Republican record. I will advocate the completion of the Southern Pacific Railroad and the securing of the trade of Arizona to San Francisco and the State. [Applause.]

A committee of seven was ordered for the district. The Chair appointed Boggs of Colusa, Hale of Mendocino, Henley of Sonoma, Ellis of Yuba, Tinniu of Trinity, Wolfskill of Solano, Judge Goodwin of Plumas.

Adjourned.

The Head of the Ticket

The Democracy of the State have done well in nominating Hon. Wm. Irwin, of Siskiyou, for Governor. We have hoped from the beginning this would be the case. We have no room this week for extended remarks, which are not necessary, as Mr. Irwin's record as a public man and a Democrat is before the people. He has been nominated solely upon his merits as a statesman and an honest man. And we believe he will be elected by a larger majority than any other candidate for Governor ever received in the State. He was born in Butler County, Ohio, in 1827, and is 48 years of age; graduated from Marietta College in 1848, taught school for one year in Mississippi, then returned to Marietta, and taught in the College for two years. In '51 he went to Chicago, intending to practice law; altering his intentions, however, he went to Cincinnati and thence to New York, from which place he took passage in 1852 for this state on the ship *Pioneer*. After remaining but a short time he went to Oregon, and there engaged in the lumber business with an uncle, returning to San Francisco in June, 1853, and established a lumber depot. In the fall of 1854 he removed his buiness to Yreka, Siskiyou County, where he has since lived. During his residence there he has established several saw-mills, and in 1866 became the publisher of the Yreka *Union*, which paper he owned until he succeeded Mr. Pacheco as Lieut-Governor. In 1861 he was elected to the Assembly from Siskiyou, was re-elected in 1862; was elected to the Senate in 1869, re-elected in 1873, and was elected speaker *pro tem.* of the Senate in the last Legislature, by virtue of which office he succeeded to the Lieut-Governorship when Mr. Pacheco took Senator Booth's seat as Governor. Mr. Irwin was married in 1865, and has one daughter. He will most assuredly be the next Governor of California.

LIBRARY—ICE-CREAM.—The Town Library has been removed a few doors west into Hyman's building, by which arrangement the public will be just as well accomodated and a considerable saving be made in rent. To aid the Library Fund, the ladies will hold an ice-cream festival on Monday evening, which the public are invited to patronize.

LUTTRELL RENOMINATED.—It will be seen by the proceedings of the Convention, that Hon. J. K. Luttrell was re-nominated by the Democracy of this (Third) District to serve as Congressman during another term. And this honor is well deserved. Mr. Luttrell has served his constituency faithfully, going after corruption in the Government wherever found, and introducing and advocating such measures in Congress as were needed, particularly on this coast. The fact that there was no competing candidate in the nominating convention shows that he was the unanimous choice of his district; and he will just as surely be elected by an immense majority as the election day comes round. The people have expressed their wish in his nomination. They will further manifest their confidence in him at the polls.

LIEUT.-GOVERNOR.—Hon. James A. Johnson, ex-Congressman for this District, has been nominated for Lieut. Gov. of the State by the Democracy. A more fitting or more popular candidate could not have been chosen—just the man to work together with Mr. Irwin. If Mr. Johnson could carry this District—as he did—he certainly will carry the State overwhelmingly.

MINIS NOMINATED.—Just as we close our columns we have the good news that ex-Senator Minis was nominated for Surveyor-General on the first ballot. This is glorious news.

This Machine we have selected from among some twenty-five machines inspected personally by our Manager last Fall throughout the Eastern States, and we find it to possess the great features most needed in California and Nevada, viz., Simplicity, Strength and Durability.

While it possesses all the good features of the "Buckeye," it has some others that make it far superior; and we feel confident in introducing it that we will meet the want of all Farmers for the BEST MACHINE for the least money. It is not a new and untried machine, but one which has stood high throughout the East for the last seven years. ☞ Send for special circular.

Town and County Matters

Democratic County Convention.

In pursuance with the call published in THE YOLO DEMOCRAT, the Democratic County Convention was held at the Court House on Saturday, the 26th of June, at 1 o'clock P.M.

The Convention was organized by the election of Jason Watkins as Temporary Chairman, and C. W. Bush as Temporary Secretary.

The Chair appointed Committee on Credentials as follows: J. H. Murphy, J. C. Ball, (for whom John Lambert was afterwards substituted,) Wm. Dresbach, J. Huey and S. L. Monday.

On Permanent Organization and Order of Business: J. C. Ball, W. W. Montgomery, H. M. Hoyt, Jas. McHenry and Milton Dale.

A fifteen minutes' recess was allowed by the Chair for the committees to present their reports.

The Committee on Credentials reported a representation of forty-nine delegates entitled to seats in the Convention.

The Committee on Permanent Organization and Order of Business presented the names of permanent officers of the Convention as follows: Jason Watkins for President, T. Foster for Vice-President, and C. W. Bush and J. L. Pace for Secretaries. Reported on the election of delegates to the State Convention that one delegate should be elected from each of the five Supervisor districts, to be recommended by the respective delegations, and that the remaining two delegates should be elected from the county at large. The reports of the committees were accepted and the committees were discharged.

The following named gentlemen were recommended as delegates and elected: R. W. Megowan, from the First District; Wm. Dresbach, Second District; H. M. Hoyt, Third District; J. C. Ball, Fourth District; James McHenry, Fifth District.

J. M. Kelly and Harrison Gwinn were elected delegates from the county at large.

A motion was made and seconded that at the State Convention a majority of the Yolo delegation should cast the vote of the whole delegation. Motion lost.

A motion was then made, seconded and carried, that the Convention stand adjourned.

C. W. BUSH,
JOHN L. PACE, } *Secretaries.*

SOFT AS MUSH.—In nothing does the proprietor of the *Mail* more clearly show his imbecility than in trying to manufacture capital out of the polite sack that Hon. J. K. Luttrell gave to those old *political hacks* who assembled on the 23d of last month in Washington, this county, and styled themselves an Independent Congressional Convention, when they endeavored to coax that gentleman into accepting a nomination for Congress at their hands, that his popularity might give strength and character to their self-styled organization. For if he is the very unfit man for that position that the *Mail* would have us believe him to be, the fact was just as well known before as after they tendered him the nomination and he declined to be their leader in this Congressional District. And those apostles of new and strange political dogmas could not have had the good of the country at heart when they tendered him the nomination; for to hold that these great doctors were ignorant of the facts in the premises, or of the man, would be likening them unto a very stupid herd of beasts.

NEW PATENTS.—Through dispatches to Dewey & Co., Patent Agents, S. F., we receive the following advance list of U. S. Patents granted to Pacific Coast inventors, viz: Isaac L. Merrell, S. F., Cal., paint compound; Christian Myer, Marysville, Cal., plow; John C. Henderson, S. F., Cal., carburetter; Horace Parkhurst, Oakland, Cal., horse-power; J. W. & V. Cook, Clifton, Oregon, trade-mark for salted, pickled and preserved salmon; G. S. Hunt, Sacramento, Cal., and B. F. Hunt, St. Louis, Mo., trade-mark for anti-friction metal.

STILL ANOTHER DISASTER.—The steamship *Oceanic*, the first of the new line of Chinese steamers, arrived at San Francisco on Tuesday last. She brings accounts of a great typhoon which occurred in the vicinity of Hongkong May 31st. The steamship *Poyang* was wrecked near Macao, and 124 lives lost. One hundred and fifty junks were destroyed. Much damage was done to property in Canton, Hongkong and Wampoa.

QUITE A CHANGE.—In the campaign of 1867 Newton Booth stumped the State for George C. Gorham for Governor of the State—they were on the best of terms. Now they are "going for" each other with a vengeance, each trying to outdo the other in detraction and vilification. Let the fur fly. A new breed of cats is demanded at this time.

STUMPERS.—The Oakland *Transcript* is credited with saying: "Senator Booth has announced that he will take a hand in the fight and that he will stump the state for Bidwell. Duke Bidwell says that it will suit his convenience to begin a stumping tour in three weeks. Meanwhile, his Highness will remain on his estate."

HALF FARE.—The Central Pacific Railroad people, will this year, as in former years, carry visitors to the State Fair at half price; and articles of exhibition for nothing.

ALARMED.—The Radicals hereabout are very long-faced just now, probably in consequence of the united front exhibited by the Democracy, and the excellent State and Congressional tickets put forth. After trying so hard to catch Democrats on the "Independent" dodge and the complete failure they have met with, it is no wonder the Rads. wear long faces.

SACRAMENTO GRANGERS.—The Grangers' Business Association of Sacramento have elected eleven directors, who will immediately organize and try to raise a permanent fund of $20,000 and build a Grangers' Hall, with stores in the first story.

CLOSED.—A. S. House, the landlord and proprietor of the Capital Hotel, closed his house to the public early in the week on account of financial difficulties. It is hoped this house—the largest in town—will not long remained closed.

SCHOOL ELECTION.—The election which took place for two school trustees of Woodland District resulted in the election of Pard Fenner for three years and James Veirs for one year, the former by 36 and the latter by 26 majority.

COLLEGIATE.—Hesperian Commercial Department is now being arranged, fitted up and finished in the most thorough manner. The Banking Office, Merchandise Emporium, Commission House, etc., are about completed.

LOST.—An enameled gold cuff pin with centre setting was lost either at Washington Hall or after the performance on Tuesday evening last. Anyone returning the same to H. Stegall will be suitably rewarded. 2*4.

AWFUL STORM.—The telegraph reports a terrible storm and flood at Pesth, on the Danube. One hundred and twenty dead bodies have been discovered in the river and many more reported carried away by the flood.

DEFAULTER.—A short time ago Jno. Miller, Secretary of the Western Development Company, was arrested as a defaulter to a large amount. It has been discovered that he has real estate enough to cover all delinquencies.

ANCIENT DISCOVERY.—A small woolen manufactory has been discovered in the ruins of Pompeii. Several charred fragments of tapestry were found, besides various machines for carding and weaving wool.

BUSINESS AGENT.—M. W. Thomas is authorized to collect bills, solicit subscriptions, advertising, job work, etc., for this office. He will call on many of our friends and patrons within a few days.

GERKE RANCH.—By referring to the advertisement, it will be seen that the sale of this great ranch has been postponed till September 7th. A special train of cars will be run on the day of the sale.

SALMON.—Since the beginning of the season about 90,000 cases of one-pound Columbia River salmon have been sold in the San Francisco market, at an average of $1 25 to $1 30 per dozen, for export.

MUCH SWEETNESS.—Adam Gilmore, of Jefferson, Wis., is one of the largest honey raisers in the world. His crop for last year was 25,910 pounds, and his apiary consists of 1,158 colonies.

NAPA SCHOOL CENSUS.—The school census just completed in Napa City shows that there are 1,266 children in that school district under seventeen years of age, and 811 over five years old.

NO CELEBRATION.—There will be no Independence celebration in Woodland this year except the Turners' ball Monday evening. That will no doubt be well attended.

UNDECIDED.—The Beecher-Tilton jury have not yet rendered a verdict. Judge Neilson says he will keep them out six weeks unless they agree upon a verdict.

CONCERT.—The entertainment given by the Alleghanians was very fine and respectable—nothing low down about it—and was well patronized both evenings.

A RARE CHANCE.—A. Kierski offers his store for sale; doing a good business. Satisfactory reasons for selling. Family rooms connected with store.

VACA RAILROAD.—We understand that track-laying is progressing rapidly and will be completed to Winters' in a few days.

HAIR.—We call attention to the new advertisement of Mrs. Davidson, who makes ladies' hair a speciality—at the Bazaar.

WHEAT.—The price paid here is $1 50 per cental. A good deal is arriving, part for shipment and part for storage.

POOR PACHECO.—It was positively cruel to compel him to speak before that Convention. To use an Irish bull, "Every time he opened his mouth he put his foot in it." In his speech accepting the nomination he declared that from the time he was beaten for the Republican nomination at Sacramento he "then and there" resolved that he "could support no other organization but the Independent party." And yet he was a candidate for the Republican nomination for Congress from the Fourth District after he returned to San Francisco, and his friends in the Convention at San Jose made a fight for him up to the last moment. Pacheco is evidently suffering from a confusion of the *cabeza*.—*Post.*

Terrible floods are reported in Bohemia, Moravia and the Tyrol. Many bridges have been carried away and thousands of cattle drowned. The crops in several districts are totally destroyed.

A SECOND-HAND PIANO for sale cheap. Inquire at this office.

THE JUNE ALDINE.—The *Aldine* for June has come to hand, and it may be called one of the most substantial numbers of the publication which has yet appeared, appealing, throughout, to the most refined and elevated sentiments. This fact is especially notable in several of the illustrations, "Mother's Darling," the first being a perfect apotheosis of that holiest and most self-sacrificing of affections conveyed by the name; while in two companion-pictures, "The Helping Hand," and "Saved and Lost," the story of man's spiritual peril and his only abiding refuge is told most strikingly. Three fine pictures open the promised series of "Picturesque Europe," in "A Waterfall in the Pyrenees," and two charming ovals, "Surmont on the Bonze," and "The Heron's Rock." The other full-page picture of the number is a graphic "Battle of Bunker Hill," following out the patroitic Centennial series commenced three months ago; and a handsome illustration of Scott, the "Drinking Stag," three noble views of Durham Cathedral, and a portrait of Hon. Luther B. Wyman, of Brooklyn, make up the art contents of the number. In letter-press no story of the late war has been so plainly and yet so sweetly told, as is "A Virginia Girl's Experience at the Fall of Richmond," of which a part is given in this number. "The Spur of Monmouth" broadens and deepens in interest, and introduces new characters freely enough to indicate a wide field before the conclusion. Besides these there are "The Bellenden Difficulty," by Florence Allen; "Germantown," by Chandos Fulton; "Odd Personal Resemblances;" careful papers on "Bunker Hill," on Music, Art and Literature. Then we have the following poems: "The Mother's Darling," "The Best to Come," "June Roses," "One Maiden's Way," and "The Brook of Kildare," by Sarah D. Clark, making up a whole of quite the average *Aldine* excellence. The Aldine Company publishers, 58 Maiden Lane, New York City.

The Public Confidence Well Placed.

Although the world has been seeking specifics for disease for many centuries, few indeed have been found. Prominent among these few is Hostetter's Stomach Bitters, which years ago received the endorsement of the medical profession, and was hailed by press and public as the great renovant and preventive of the age. And with good reason, since to the weakened stomach it gives strength, to the torpid liver activity, to the disordered bowels regularity, and to the shaken nervous system firmness and tone. Under its benignant influence healthful vigor returns to the debilitated and wasted frame, the flaccid muscles become compact, the wan aspect of ill health is replaced by a look of cheerfulness, the mind ceases to despond, and flesh is developed upon the attenuated frame. There is no exaggeration in this statement. It is as true as that the system is subject to disease. Were proofs required to substantiate the reality of the comprehensive effects of the Bitters, there is probably not in existence a medicine in favor of which such a mass of concurrent testimony, from the most respectable sources, could be adduced. But the efficacy of the nation's alterative and invigorant has been a matter of universal knowledge too long to need any such corroboration. The fact that it has the largest sales in those portions of the North and South American Continents, Mexico and the West Indies, in which atmospheric influences, prejudicial to health exist, proves what confidence is felt in its remedial and protective virtues. In localities where fevers of an intermittent type prevail, especially, it has come to be regarded as an indispensable necessity. Jy2

DURING the epidemic of intermittents in the West this season, the whole immense stock of Ayer's Ague Cure became exhausted, and the producing power of his Laboratory was found inadequate to meet the demand. Many who knew its extraordinary virtues for the cure of CHILLS AND FEVER, paid exhorbitant prices for it. This AGUE CURE is said, by those who use it, to never fail. Reader, if you must have medical aid, take the best of medicine. Poor remedies are dear, as good are cheap, at any price you have to pay for them.—*Charleston Courier.*

IMPORTANT.—Endorsed by the Medical profession. DR. WM. HALL'S BALSAM FOR THE LUNGS cures Coughs, Colds and Consumption, and all diseases of the Throat and Chest. DR. TOWNLEY'S TOOTHACHE ANODYNE cures in one MINUTE. fe12-20w*

DURANG'S RHEUMATIC REMEDY.—Presidential Mansion, Washington, D. C., April 23, 1875. Messrs. Helphenstine & Bentley—Gents: For the past seven years my wife has been a great sufferer from rheumatism, which at times assumed a very malignant form, and for days and nights deprived her of rest. Several months ago our attention was called to DURANG'S RHEUMATIC REMEDY, and after giving it a trial, using three bottles in all, she was freed from pain and a permanent cure effected. I am glad to be able to make the above statement in reference to your wonderful remedy, three bottles of which will, in my opinion, cure any case of rheumatism on the face of the earth. Yours truly, WM. H. CROOK, Executive Clerk to President Grant. H. C. KIRK & CO., Wholesale Agents, Sacramento Cal. je18

Health the Source of Happiness.

The relaxation of the nervous system, which creates an indisposition to mental or bodily action, is of very frequent occurrence. It is found that a torpid liver, debilitated stomach or deranged bowels are the great causes. For years DR. HENLEY'S CELEBRATED I. X. L. BITTERS has been successfully used throughout the United States, as an unfailing restorative and health-giving medicine—restoring and invigorating those organs to their original strength. It has never failed to restore to health and reinvigorate the whole system. Dyspepsia, indigestion and loss of appetite, general debility, rheumatism, fever and ague, disappear with its use. As a medicine for diseases arising from impure or impoverished blood, it is without an equal. They are composed of an absolutely pure diffusive stimulant, medicated with the extracts and juices of the most effective tonic, and will prove a safeguard against the attacks of dispepsia and liver complaint. ap16-3m

NEW AGENCY.—T. B. Reindollar has been appointed agent for this Town and vicinity of the following old and reliable fire insurance companies:

Old North America, of Philadelphia, (Incorporated 1794,) assets $5,000,000. This company is the oldest in America, and has paid out since 1794 over $36,000,000 for losses.

America, of Philadelphia, (Incorporated 1810, assets over $1,000,000.

Continental, of New York, (Incorporated 1825,) assets $2,600,000.

Niagara, of New York, assets $1,500,000.

German American, of New York, assets $2,000,000.

Royal, of London, assets $17,000,000.

Combined assets over $29,000,000.

We are informed by Mr. Reindollar that this is one of the largest agencies in the world and worthy of support for its great security to its policy holders; and all losses will be paid promptly. 11*4.

GREAT

Land Sale!

THE GERKE RANCH,

COMPRISING

Fifteen Thousand Acres

Of the finest lands in the State, is now offered for sale in 40, 80 and 160-acre lots.

Sales Made by the Owner Direct

Or through agencies established by him.

NO MIDDLEMEN.

A FINE VINEYARD

Containing 100,000 vines, the youngest of which are 11 years old, capacity 100,000 gallons, will be included in the sale.

LOCATION.

THE GERKE RANCH is situated in Tehama and Butte counties. The California and Oregon Railroad traverses the eastern boundary for a distance of five miles, the Sacramento river bounding the west side. On the north flows Deer creek, which contains sufficient water to irrigate 50,000 acres; and the water right will be secured to every purchaser. The river is navigable to the farm at all seasons of the year.

HOMES.

To those seeking homes, this farm presents unusual attractions of soil, climate and location. The frost and drought which has been almost universally disastrous the present year has not injured the crops or vineyards in the least.

One hundred and fifty families can make themselves comfortable homes here.

Sale on Ranch, Sept. 7, 1875,

(FIRST TUESDAY IN SEPTEMBER.)

TERMS OF SALE.

Twenty-five per cent. cash; balance in one, two, three, four and five years at 10 per cent. per annum.

Land may be purchased at private sale until the day of public sale.

TITLE, U. S. PATENT.

An Excursion Train will run from Sacramento City to the Ranch on the day of sale.

Who Are the Poor?

BY CALEB DUNN.

Who are the poor? Not always those
Who have the least to show,
Nor are they always found among
The darkest haunts of woe;
For one may wear the richest dress
And roll in wealth's galore,
And still, in Heaven's perfect sight,
Be poor, aye, very poor.

The brightest skies may ever shine
Above the mansion proud,
And he who dwells within its walls
With want may ne'er be bowed;
The sweetest music ever heard
May feed his listening ear,
And mirth and pleasure fill the cup
Of all the gladsome year.

Yet poor, indeed, must be the man
Who owns such joys as these,
If e'er his heart is coldly closed
To others' miseries;
And vain is all his store of gold
If selfishly he lives,
And always reaping harvests new,
No charity e'er gives.

Real poverty is in the heart,
'Tis want of love for man,
'Tis failure to perform a good;
To bless when e'er you can;
'Tis lack of love and lack of faith
In God and His decree,
That th' greatest virtue one can own
Is loving charity.

So let us, then, do all we can
To help each other on,
And show that wealth of mind and heart
Which lives when gold is gone;
And let us keep this truth in view
Where'er our steps may lead;
A man may be a millionaire
And yet be poor indeed.

General Items.

France has voted $120,000 towards our Centennial.

Dong Gong, a Chinese convert, was ordained as an elder in the Baptist Church at Portland last week.

When President Grant retires *from* office he will be the richest man who ever left the White House.

San Rafael assesses the railroad track within its limits at $7,000 per mile and the rolling stock at $15,000.

Senator Jones paid $25,000 for six Eastern horses, and $1,500 for a special car to bring them to this State.

Ida Greely and husband have taken a house and settled down for the season in the West End, London.

The prohibition against taking, killing and destroying elk, deer and antelope expired by limitation last Wednesday.

There were ostensibly 284 delegates at the Independent State Convention; and out of that number there were 125 proxies.

Marshall Hastings, son of Judge S. C. Hastings, of Napa, was thrown from his horse on Sunday last, and instantly killed.

The House of the New Hampshire Legislature has censured the Governor and Council for the action in the Senatorial matter.

The earnings of the Union Pacific Railroad for the first twenty-two days in June were $718,059, against $569,925 for the same time 1 at year.

The Spanish frigate *Victoria* has bombarded with destructive effect the ports of Matrieo and Deva, on the Guipuzcoan Coast, held by Carlists.

Probably the wealthiest journalist in America is A. S. Abell, of the Baltimore *Sun*, whose property is etimated at from $7,000,000 $10,000,000.

Jefferson Davis has been tendered and will accept the presidency of the Texas Mechanical and Agricultnral College at Bryan, Salary $4,000.

Referring to General Bidwell, the Vallejo *Chronicle* says: "His cold, haughty, aristocratic disposition repels the sympathy of the masses of the voters."

Three men—McCourt, Hecker and Jenkins were smothered to death in the shaft of the Marchiue mine caused by the house at the top taking fire.

General Duff Green died on the 10th inst., at his home at Dalton, Georgia, in the 85th year of his age. General Green was an uncle of W. S. Green, of the Colusa *Sun*.

Five members of the San Francisco Olympic Club walked from that city to San Jose Saturday evening, making fifty-one miles in thirteen hours and fifteen minutes.

A woman rag picker of Indianopolis, who has always lived in the utmost squalor and was supposed to be very poor, died the other day, and is found to have been worth nearly $100,000.

A naval force with steam launches will be ordered to the mouth of the Rio Grande to look after our interests there and co-operate with the army in the suppression of Mexican raids.

In Gordon Valley, Idaho, the crickets are very destructive, having already destroyed a large portion of the crops in that locality. When full grown these crickets are as large as mice.

Lady Franklin is hopelessly ill. She bade farewell to the commander of the *Pandora*, which went in search of the relics of the Franklin expedition and other exploring voyages.

Surveyor General Gardener says that the nomination of Twitchell is an indorsement to his office. He is right. The Independent Republicans are estopped from opening their mouths again on this subject.

In a thunder storm in Sutherord county, Tenn., one Mewilliam was killed by lightning, four others were struck senseless, four were knocked down, and five houses were unroofed, Much damage was done in Chattanooga,

A violent tornado passed over the city of Quincy, Ill., on the 15th, destroying houses, barns, and tearing down trees and fences. Railroad bridges and culverts suffered considerable, and one man was killed.

Three handsome passengers cars, built by Kimball & Co., of San Francisco, were lately forwarded to be used on the Vaca Valley Railroad. They are mrde in the latest improved style and handsomely furnished throughout.

Rev. M. W. Pratt informs the Lassen *Advocate* that the grasshoppers are doing great damage in Big Valley, and that the people there have become so apprehensive of a general famine that they have abandoned the idea of holding a camp meeting.

Tasper T. Hopkins, President of the California Insurance Company who was temporary Chairman of the State Independent Convention, said his nomination was a surprise: then drew a written speech from his pocket and in it said that his election was entirely unexpected.

Klemer, the negro, who outraged the wife of William A. Vaughn, near Carthage, Hancock county, Missouri, last week, was brought to Greenfield for safe keeping. Saturday morning a mob, numbering about 160 masked men, broke open the jail and hanged him in the hall at the Fair grounds.

On Saturday evening a tornado passed over the north western part of Detroit, from Twenty first street to Grand River and Twelfth. Its path was about 300 feet wide. About thirty houses, besides outbuildings, were demolished. Four persons were killed, and many others injured, some seriously.

The Colusa Democracy have nominated for County Judge, D. Robinson; County Clerk, S. M. Bishop; Sheriff, D. Arnold; District Attorney, Jackson Hatch; Treasurer, J. Dunlap. The following were chosen delegates to the State and Congressional Conventions: W. F. Coad, Dr. J. Glynn, T. Kirk, H. Hays, T. Stevens and D. Farlee, who go uninstructed.

We understand, says the *Record-Union*, that the late Judge Crocker did not leave a will, but the settlement of his estate was provided for when he was taken so ill about two years ago, by his executing a trust deed to his brother Charles. It gives to Mrs. Crocker half of the estate, and also, we believe, the residence, etc.; the remainder of the property, with the exception of a few minor bequests, being divided among the children.

Paymaster John H. Stevenson, of the navy, formerly well known on this coast, but now stationed in Japan, is reported to be a defaulter in the sum of $66,000. To those who know Stevenson this news is only startling in that it did not come out before. He went into the navy in 1862, poor and obscure, and has ever since lived at the rate of $20,000 a year, on a salary of $3,000. He has for several years been under a quiet surveillance, but has hitherto been too shrewd to be caught.

AYER'S

CATHARTIC PILLS,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

CURING

Costiveness, Jaundice Dyspepsia, Indigestion, Dysentery, Foul Stomach and Breath, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action; and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most skilful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

AYER'S AGUE CURE,

FOR THE SPEEDY RELIEF OF

Fever and Ague, Intermittent Fever, Chill Fever,

Remittent Fever, Dumb Ague, Periodical or Bilious Fever, etc., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

Rx

Has been widely used, during the last twenty-five years, in the treatment of these distressing diseases, and with such unvarying success that it has gained the reputation of being infallible. The shakes, or chills, once broken by it, do not return, until the disease is contracted again. This has made it an accepted remedy and trusted specific, for the Fever and Ague of the West, and the Chills and Fever of the South.

Ayer's Ague Cure eradicates the noxious poison from the system, and leaves the patient as well as before the attack. It thoroughly expels the disease, so that no Liver Complaints, Rheumatism, Neuralgia, Dysentery or Debility follow the cure. Indeed, where Disorders of the Liver and Bowels have occurred from Miasmatic Poison, it removes the cause of them and they disappear. Not only is it an effectual cure, but it taken occasionally by patients exposed to malaria, it will expel the poison and protect them from attack. Travellers and temporary residents in Fever and Ague localities are thus enabled to defy the disease. The General Debility which is so apt to ensue from continued exposure to Malaria and Miasm, has no speedier remedy.

For LIVER COMPLAINTS, it is an excellent remedy.
